

BERGAMOT

Citrus aurantium bergamia 10ml

goDésana
feel the pure plant difference

application

Aromatic • Bath • Internal • Topical

properties

Organic

Producing Organ: Peel

Extraction: Cold Expression

Country of Origin: Italy

Safety Group: #2

Main Chemical Constituents: linalyl acetate, linalol

Therapeutic Properties: Analgesic, anti-parasitic, anti-depressive (often called "nature's prozac"), antiseptic for lungs and genito-urinary tract, antispasmodic, anti-tussive (relieves coughing), carminative (flatulence expelling), digestive, diuretic, deodorant, anti-pyretic (reduces fevers), anti-diarreal, stimulant, tonifier, vermicide (destroys worms), vulnerary (heals wounds), and protects gastric mucus of the stomach

uses

- Combine 8-10 drops with ½ to 1 cup of Pink Himalayan or Dead Sea bath salts and add to warm water.*
- Diffuse in 5 minute intervals throughout the day to enhance mood and purify the air.*
- Mix 15-20 drops in 4 ounces of distilled water in a cobalt blue spray bottle. Shake well and spray to lift the emotions and impart a refreshing citrus scent.*
- Apply 1-2 drops to pulse points as a natural perfume and to support emotional balance.*
- 1 to 2 drops in a glass of water and used as a mouthwash and gargle may assist mouth ulcers, bad breath, and general inflammation.*

product summary

Research has verified Bergamot's capacity for restoring emotional balance and, in the process, enhancing the efficacy of treatments for depression and anxiety disorders. It is soothing and grounding to those who are anxious or overly stimulated, yet uplifting and stabilizing to individuals suffering from depression.*

With a pleasant and uplifting aroma, coupled with its remarkable ability to soothe the emotions, it's not surprising that Bergamot has earned the title "Nature's Prozac" in the aromatherapy world.*

Bergamot is regularly used to generate a fresh, delightfully citrus flavor in food. It produces a marvelous synergy when used sparingly in green tea to create a pleasant anti-inflammatory and detoxifying beverage.*

This can also be helpful in easing digestive issues such as gastritis, colitis, constipation, ulcers, and esophagitis as Bergamot is a potent stimulant to the stomach, spleen, and liver. Bergamot uses include acne, abscesses, anxiety, boils, cold sores, cystitis, depression, halitosis, itching, loss of appetite, oily skin, psoriasis, and stress. [Julia Lawless, *The Illustrated Encyclopedia of Essential Oils* (Rockport, MA: Element Books, 1995), 56-67.]*

responsible cautions

- Maybe phototoxic; do not expose skin to direct sunlight for 24 hours after application.
- Non-toxic, non-irritant, non-sensitizing.
- Keep out of reach of children and pets.
- If you are pregnant, nursing, or under a doctor's care, consult your healthcare provider prior to use.
- Store away from sunlight, at room temperature, with the lid securely tightened.
